

This diagram is an indicative overview of the Registration pathways. We cannot determine the exact pathway any application will take until we receive the application form and fees. We strongly recommend you use our quick online [self assessment tool](#) in conjunction with this diagram, before contacting us.

We may choose to decline any registration application. We may, at our own discretion, choose to apply the appropriate provisional registration, supervision, monitorings or conditions on any registration.

note(a) – If you do not qualify for the Locum Tenens Special Purpose pathway because you do not hold an approved postgraduate qualification, or you intend to stay in New Zealand for more than 12 months, there is an alternative option that you may still be eligible to register via General Pathway.
